Welcome Message

**Dear esteemed guests and valued partners,
Welcome to Weldarc India – an exciting moment to connect, engage, and explore the world of innovation in welding and beyond!**

As the Director of Weldarc India, it fills me with immense pleasure to extend my heartfelt greetings to each one of you present here today. Our journey has been one of determination, passion, and unwavering commitment to excellence. Today, we stand proud, showcasing the result of our collective efforts and relentless pursuit of cutting-edge solutions. Throughout the years, Weldarc India has emerged as a leading force in the welding industry, continually pushing the boundaries of what is possible. Our team of dedicated experts, together with our valued partners, have paved the way for revolutionary advancements that redefine the art and science of welding.

So, let us embark on this journey together, as we unfold the remarkable achievements and opportunities that await. Join us in embracing innovation, excellence, and a vision that transcends boundaries.

Thank you for gracing us with your presence today. Together, we will forge a world of boundless possibilities.

Welcome to the WeldarcIndia experience!

With warm regards,

**M.S. Mansoori
Director,
Mansoori Weldarc India Pvt Ltd.**

About Weldarc India

■ A Brief Story About Weldarc India

Founded in the year 1993, Weldarc India Pvt. Ltd. is counted amongst the most promising Manufacturer, Exporter and Trader firm of high performing Cutting & Welding Machines. Our quality tested product portfolio comprises widely demanded equipment, such as CNC Plasma Cutting Machines, Welding Automation Systems, and Laser Cutting Machines

Our VALUES

Besides our strong business fundamentals, there is one thing that defines our culture at Weldarc Cutting & Welding Systems and helps bring our vision to life. Our Six values not only define who we are as a company, they guide and motivate us in our daily working lives.

Our Mission

Our aspiration is to be the world's leading solution provider of cutting and welding systems. For over 25+ years, our top priority has been to create more value for our clients, to help them grow and to form long-term Relationship with them. As a loyal partner, we firmly believe: our client's success is our success

Our Mission

Our mission to develop and follow business practices, which would induce develop and retain confidence of our business partners and employees and rated best amongst quality and service for the solutions that we provide to our customers.

Our Company Timeline

Since 1990, Mansoori Weldarc India Pvt Ltd. provides assembly, welding, cutting and slicing solutions. Our Organization is renowned for the technology we provide for the infrared, spin and laser technology welding. Our skills benefit many business sectors: aeronautics, food, automotive, cosmetics, electronics, medical energy, plastics, textiles and many more for whom we consistently innovate.

1993

The Men Behind the success of Mansoori Weldarc India Pvt Ltd the Founders Mr. M.K. Mansoori and Mr. Shahnawaz Mansoori being the advertisers of the company were engaged with the machine instruments business since 1982.

2000

Driven by a vision to build the company into a temple of technology through team work, the organization has grown manifold from manufacturing gear boxes for machines to developing precision all-g geared head lathe machines and later on sophisticated CNC Machines.

2005

Continuous process improvement and fast adoption of State-of-the-art technology has led Weldarc India in becoming a leader in innovating manufacturing techniques and won many Awards for their great work and contributing new technologies and innovative designs.

2012

Mr. Afzal Mansoori (CEO) and Mr. Asif Mansoori (COO) gave company new directions and growth with their innovative ideas and new technology. Now Weldarc India have offices and Regional service centers globally.

Weldarc India

Offerings

Facility

Weldarc India has an excellent manufacturing facility with 45000 sq feet area

Latest Technology

Weldarc India prides itself on staying at the forefront of technological advancements in welding and laser cutting systems.

Best Service

We provide comprehensive pre-sales consultations and exceptional after-sales support to ensure best service throughout the engagement.

International Reach

Our international reach allows us to cater to diverse markets, making us a reliable choice for welding and laser cutting solutions on a global scale.

Our Services

www.weldarcindia.com

Fabrication Industry

Weldarc India offers top-notch fabrication services, catering to a wide range of industries.

Fabrication shops are employed by contractors, OEMs, and VARs.

Welding Automation

Weldarc India specializes in welding automation solutions, optimizing production processes through robotic systems.

PEB Machine

Our PEB solutions offer versatility, sustainability, and cost-effectiveness for a variety of commercial and industrial applications.

Weldarc India has vast experience in Automation of variety of machine tools, SPM's & robotic applications. CNC & MOTION have been the core strengths of our organization. Weldarc India have variety of automation, motion control, Fabrication Industry, PEB Machine, CNC & laser services.

Our Services

www.weldarcindia.com

Railway Industry

Weldarc India offers specialized products and services for rail infrastructure, including welding systems, maintenance equipment, and innovative solutions

Machinery Facility

Weldarc India's machinery facility is equipped with cutting-edge technology, enabling us to manufacture precision-engineered machines and equipment.

Sheet Metal

Weldarc India excels in sheet metal fabrication, producing high-quality metal components using advanced CNC machinery.

Weldarc India has vast experience in Automation of variety of machine tools, SPM's & robotic applications. CNC & MOTION have been the core strengths of our organization. Weldarc India have variety of automation, motion control, Fabrication Industry, PEB Machine, CNC & laser services.

Our Products

TIG INVERTER SERIES

Equipment are designed as per industry standards using the best quality basic material under the guidance of our expert team. The entire range is offered in different sizes and designs to fulfill the wide needs of our esteemed clients.

TIG 200

PRO TIG-315

PRO TIG-400

PRO TIG-500

SAW SERIES

FEATURES

- ▶ Efficient and energy-saving equipments, good for butt, lap, fillet welds.
- ▶ Small, light, flexible adjustment and convenient operation.
- ▶ Duty cycle is as high as 100%.
- ▶ Weakly influenced by input voltage fluctuation.
- ▶ Wide adaptability of welding parameters, reliable performance.
- ▶ Over-heat protection and wire against protection

SAW 1000

SAW 1250

SAW 1250N

SAW 1000N

ROBOTIC HAND

They are industrial robots equipped with specialized welding tools and systems that allow them to perform various welding tasks. They are capable of performing complex welding applications that may be difficult or impractical for human operators.

They can handle intricate weld patterns, reach tight spaces, and work with advanced welding techniques such as TIG (Tungsten Inert Gas) or MIG (Metal Inert Gas) welding.

WELDING S.P.M & AUTOMATION

ROUND WELDING AUTOMATION

FEATURES

- One H-beam steel placed on workpiece support frame with 45°, which is suitable for boat welding.
- Gantry welding machine walks on rails at adjusted welding speed.
- Use SAW welding to weld two seam.
- Arc-guide frame automatic seam tracking.
- Flux automatic feed and recovery system

LINER WELDING AUTOMATION

FEATURES

- One H-beam steel placed on workpiece support frame with 45°, which is suitable for boat welding.
- Gantry welding machine walks on rails at adjusted welding speed.
- Use SAW welding to weld two seam.
- Arc-guide frame automatic seam tracking.
- Flux automatic feed and recovery system

CNC PLASMA CUTTING MACHINES

This advanced machine utilizes a combination of computer numerical control (CNC) technology and either a flame or plasma cutting process to achieve highly accurate and efficient cuts.

The CNC plasma cutting machine employs a focused and high-temperature plasma arc to melt through the material, while a high-velocity gas jet blows away the molten metal.

H-BEAM

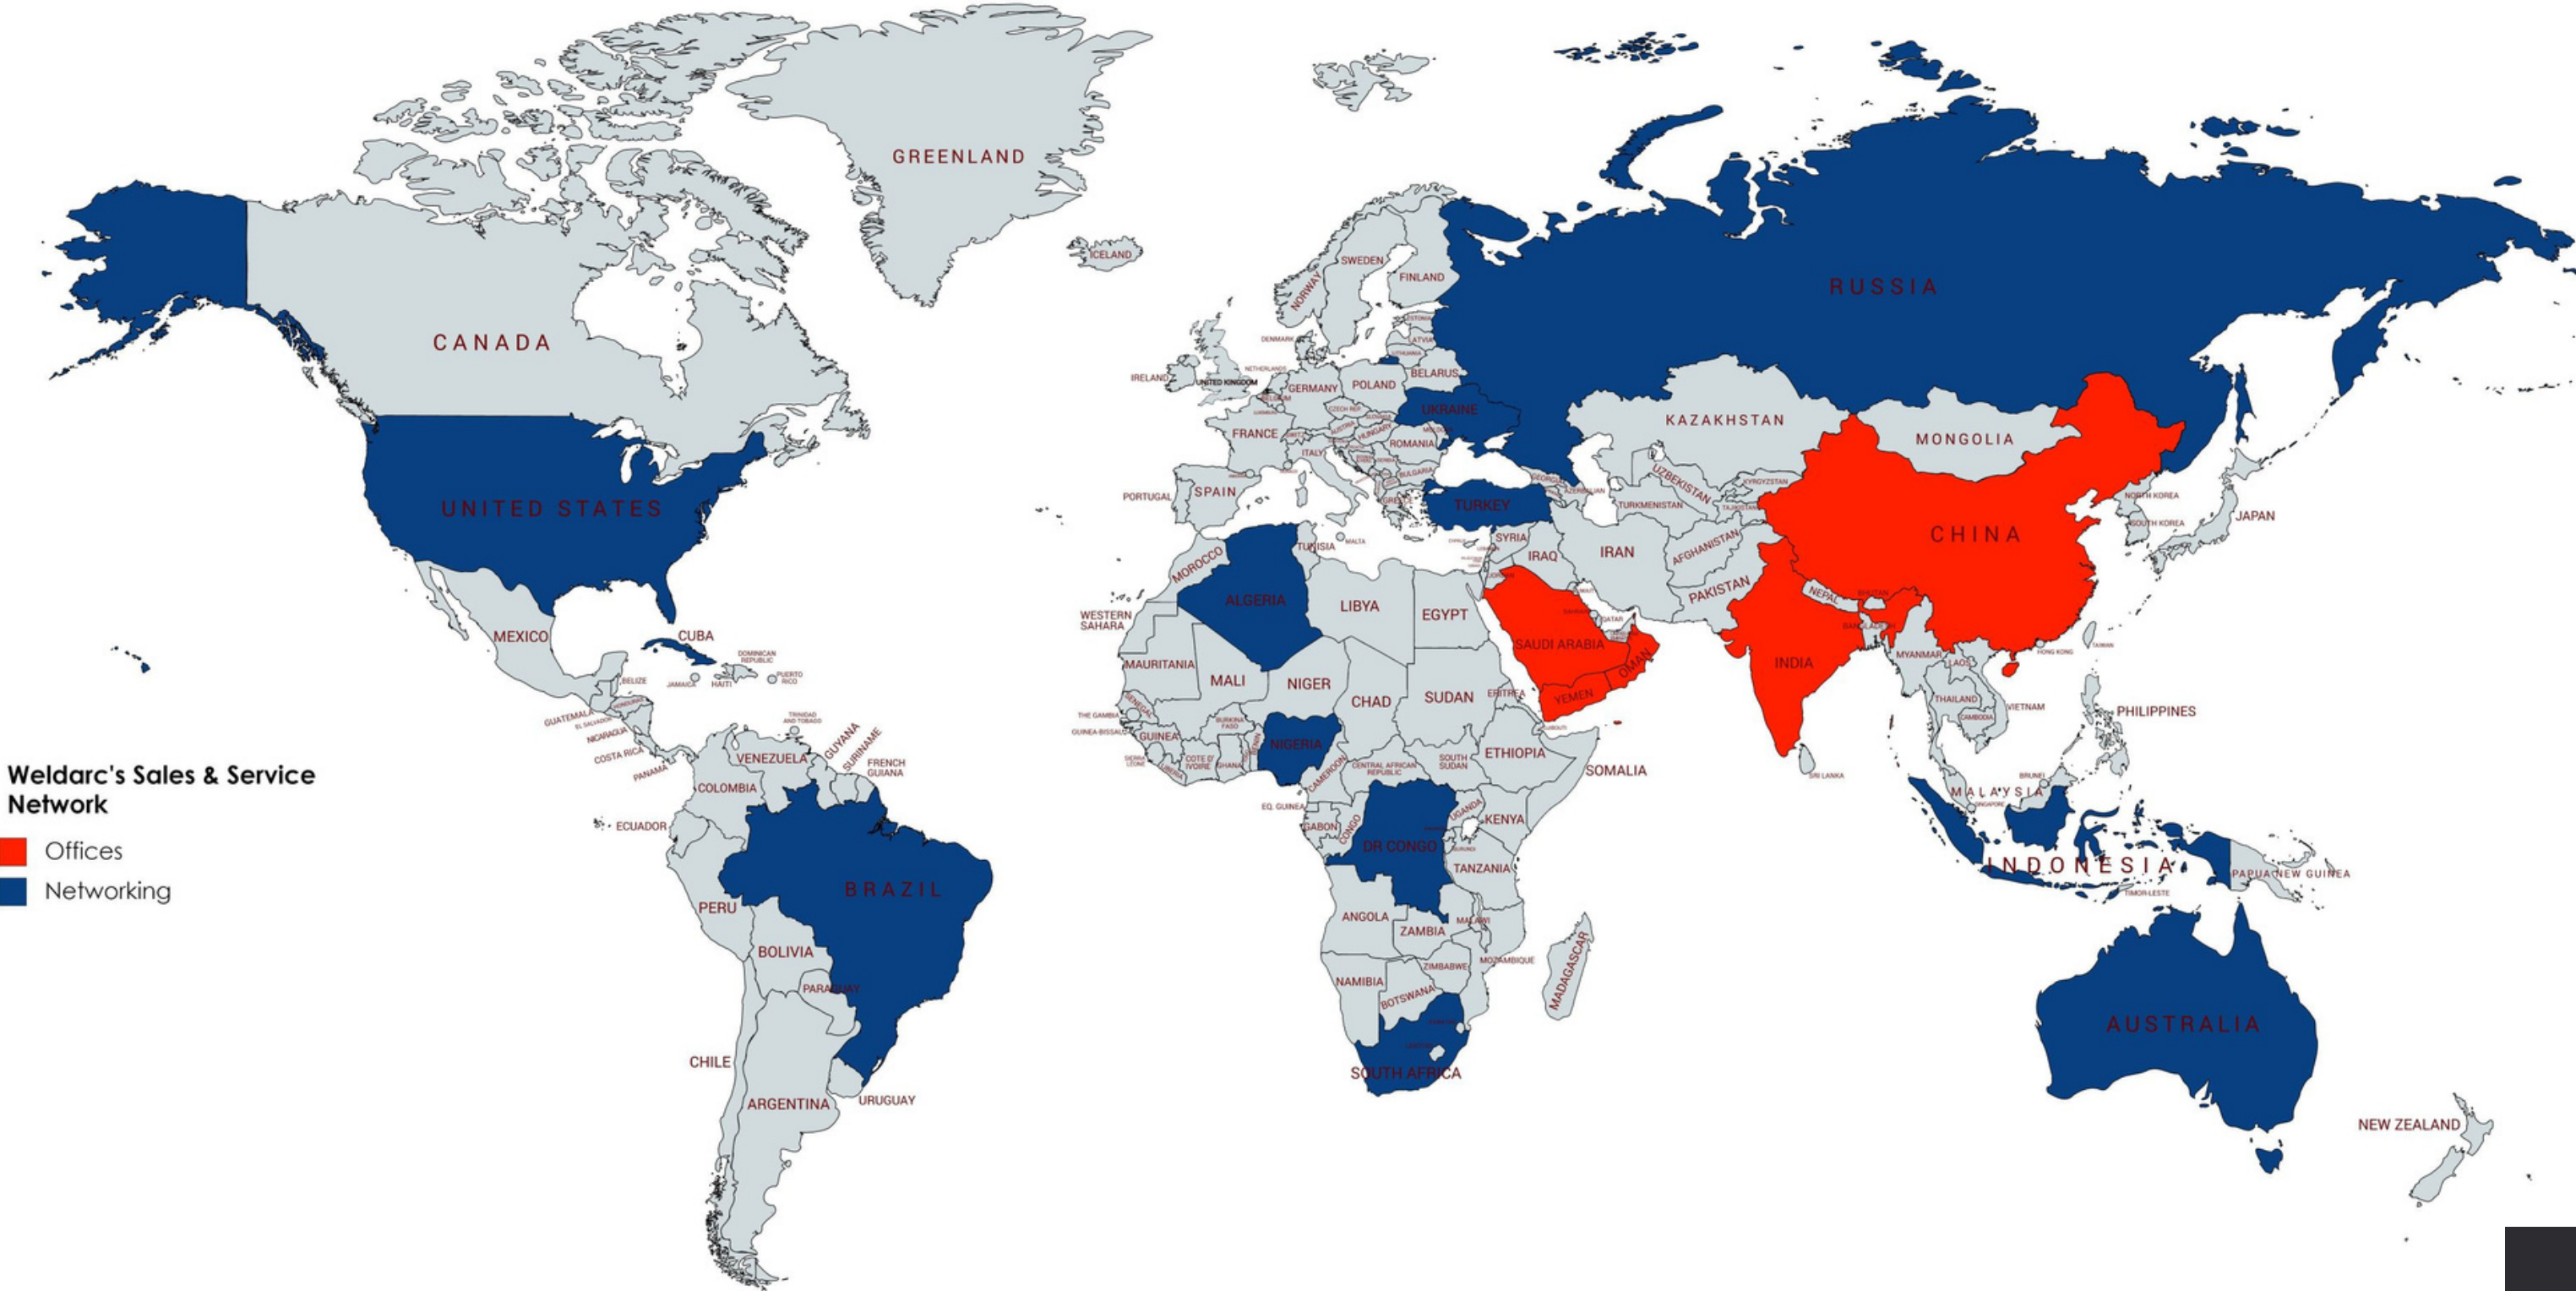

Our automated PEB Beam Welding Machine serves the exact customer requirement and high quality of welding with increased productivity to compete the current market. We have supplied our Automated H-Beam

Welding systems to many PEB Manufacturers in India and abroad and brought them to our list of satisfied and happy customers.

WELDARC INDIA

SALES & SERVICE NETWORKS

WELDARC INDIA

MAJOR CLIENT

WELDARC INDIA ACHIEVEMENTS & CERTIFICATES

We Have The Best Team

Since origin, Mansoori Weldarc India Pvt Ltd has profited by a prevalent initiative group - from our solid, dynamic and independent board members to our accomplished and all inclusive circulated senior supervisory team.
